Software Engineering Certificate Program

08/2022 - 05/2023

Thoughtful

Online

- Acquired comprehensive knowledge of industry best practices and software development standards focusing on JavaScript, HTML5, CSS3, React Native, Node.js, PostgreSQL, RESTful API's, algorithms, and data structures.
- Demonstrated growth by successfully developing and launching mobile-first applications, actively engaging with senior web developers in a mentor-student relationship to expand language proficiency and framework expertise. Produced professional projects from concept to completion including:
 - **Recipe Tracker Application** | [Link](#)
 - Build a React application to allow saving recipe information.
 - Implemented the single responsibility principle with React components.
 - Technology: React, HTML5, CSS3, Bootstrap
 - **Encryption/Decryption Application** | [Link](#)
 - Build an application that takes user inputs and encodes them into secret messages using several encoding algorithms.
 - Implemented a feature to decode encoded messages.
 - Technology: JavaScript ES6, HTML5, Node.js
 - **Responsive [AirBnB] Frontend Application** | [Link](#)
 - Build a front-end look-alike of [AirBnB] static website with responsive mobile, tablet, and desktop views.
 - Leveraged Flexbox and other CSS tools for layouts.
 - Technology: HTML, CSS, Flexbox

Director

07/2012 - 08/2022

Diverse World LLC

Ulaanbaatar, Mongolia

- Over the past decade, I founded and steered a thriving business that achieved substantial growth and profitability.
- Created an impressive online footprint by implementing effective digital marketing strategies and building a strong online presence.
- Diversified operations in different fields such as education center, translation bureau, tourism, business advice, and marketing research
- Nurtured valuable business relationships with key stakeholders and clients to drive long-term growth.

Managing Director

10/2002 - 06/2012

Ochir LLC

Ulaanbaatar, Mongolia

- Achieved a 20% improvement in efficiency by implementing the new system for organizing and filing physical mail and fax documents, ensuring easy accessibility and retrieval as a Personal Assistant to the CEO.
- Played a pivotal role in coordinating diverse projects including coal mining, construction, and quality management, collaborating with partners from China, Russia, Canada, and Germany.
- Introduced a cutting-edge waste management system at the subsidiary wood processing factory, subsequently initiating a project that converted waste from the factory into fuel and increased profit by 10%.
- Recognized for exceptional performance and progressed through various roles, starting as a Personal Assistant and advancing to Project Manager, General Manager, and ultimately Managing Director
